Winter 2009

To EDMC Education Foundation Friends:

In this edition, we highlight some of our many 2008 scholarship recipients. We showcase these admirable students to both honor their achievements and to give our constituents and friends better insight into the lives of the students they assist. We hope that you will continue to support the Foundation in 2009, during a time when students will need financial help more than ever. Giving, especially when we are experiencing a pinch in our own wallets, has the subtle effect of enlarging our lives. Thank you, all, for your generosity.

We make a living by what we get, but we make a life by what we give. -- Winston Churchill

Sincerely,

Daniel A. Levinson, President
EDMC Education Foundation

Simply log on to: <http://www.edmcfoundation.org>.

Also, you can contribute via our secure on-line site (Visa or Mastercard). Other ways to contribute include: mail-in donations, EDMC employee payroll deduction (ask for a form from your HR department), or by phone with a credit card. Mail

Kathleen Llorente, PsyD student at Argosy University-Atlanta, scholarship recipient.

Kathleen Llorente- " I have been especially pleased with Argosy's PsyD program so far. Even though the past year has been stressful due to family financial circumstances, I have managed to maintain a 3.56 GPA. Once earned, I plan to use my doctorate degree to work primarily with adults, utilizing assessment and therapeutic skills that I have learned in this program. I greatly appreciate your financial assistance!"

Felicia Brown Shuman, recipient of The Bethany Fund scholarship, with benefactor of the fund, Andrew Shriley, Brown Mackie College, Miami

Michael Hayhurst, Audio Production Student at The Art Institute of Atlanta, Receives a \$2,000 EDMC Education Foundation Scholarship

"It all started with my mother. When she was in college, she majored in classical music. This explains my open mind for many different styles and genres of music. I have always been interested in the process of creating music from the initial idea to the final product. Even though I had a desire for the audio field, I had originally considered attending another university to study business management. Deep down I knew it would not be the most fulfilling choice, but I felt as though it was my only choice.

That all changed when a high school representative from The Art Institute of Atlanta strolled into my life. She spoke of a major known as audio production and my thoughts immediately stirred. I gave her my information and was later accepted into a school that would develop my dreams. Today, I am in my tenth quarter and working towards graduation and loving every minute of it. People are simply baffled when I mention my 17 hour school day. When you are experiencing something passionate, it's hard to stay away."

EDMC Employee Payroll Deduction Program

Felicia Brown Shuman- "My name is Felicia Shuman and I am majoring in Criminal Justice. My sister and I started at Brown Mackie College-Miami in April of 2007. In May of 2007 my sister died from a heart problem called Myocardias, a rare disease that only strikes approximately 10 people in the U.S. per year. Through it all, although I was emotionally distressed, I continued to study hard and maintained a 3.5 GPA. I have only missed one day of school in 16 months. I give special thanks to my family and peers for supporting me. I am a single parent of three children under 13 and I am striving hard to achieve this goal and many more, for my sister who wasn't able to live her dreams, and for myself and my children. I feel I deserve this scholarship for having the heart to go through it all, and for being able to tell my story so that many students may be encouraged to be strong and not let anything get in the way of achieving higher education."

Andrew Kim Muday, recipient of the Bethany Fund Scholarship, Brown Mackie College-Miami

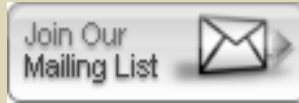

Andrew Kim Muday- "On the day I was born I was given up for life or death on the steps of a hospital in the capital city of Seoul, Korea. Lucky for me, I would get a new chance, because two loving people in the U.S. wanted a child. This would determine the path that my life would take.

Soon after arriving in the U.S. my

The EDMC Payroll Deduction Program is a great (and relatively painless!) way to contribute to your school's scholarship fund. 100% of a monthly or bi-weekly contribution goes back to your school in the form of scholarships for current students. To download a form, go to the scholarship tab on our website, print and fill out the pdf form, and return it to a Human Resources Representative at your school.

Industrial Design Student, The Art Institute of California, Orange County

new parents realized that I had several heart defects, which, if not corrected, would lead to a poor life. I underwent full heart surgery. Fortunately, after all my surgeries I became healthy. Somehow, this surgery planted the seed that would determine my future career goal. I knew that I have the makings to go into the medical field and help others who needed such surgery.

This goal finally led me to Brown Mackie College-Miami, where I am pursuing a degree in Medical Assisting. I am so determined to become a cardiologist surgeon that I will not let anything get in the way of that goal. I want to take this degree and go on to medical school, and use it in good spirit to help out those who are in need of the same surgery I had. I greatly appreciate the help this scholarship will give me to obtain my dream."
